December 20, 2006

To Whom it may Concern,

I would like to express my interest in an internship within your company. I am a French student who specialized in international trade and, as a result, I am interested in a position that will use my skills in import/export and marketing. My goal is to enhance my career in the trade industry through an internship experience in the United States.

Please note that I have both relevant education and experience. I recently graduated from a 2 year degree specializing in International Trade, a course which included several unique internship experiences in France, Germany and the United Kingdom. My work experience includes working as an assistant in an import/export services company in France, as well as internship experience working in the marketing field.

It is very important for me to associate theory and practice, and this is why I always volunteer for new work experiences to increase my skills. I think that working for you would be a great way to both expand my skills and have a rewarding experience in the United States. I have enclosed my resume for you to review.

I will be available to interview at your earliest convenience, and I am hoping to start an internship at the end of March.

Thank you for your time and consideration. I hope that I will meet your requirements and that you will consider me for an appropriate position.

Sincerely,

Sophia Loren
